

More Collars Needed!

Our Numbat radio-collar fundraiser has been going very well with eight collars funded so far. However, we need more – at least six. If you're looking for a present for someone, a fundraiser for your child's school or a community group, then this might be the thing for you.

Collars cost \$250 each and donors receive a certificate with a photo of the Numbat, its details and release location. Donations are also tax deductible. Details and a form are available on our website.

Quiz on Legs 2011

On 28 September, Project Numbat attended the annual Quiz on Legs event at Kings Park.

This was another fantastic events with more than 1500 children in attendance. We ran a number of activities teaching school children about radio-tracking for Numbats in the wild and the threats they face.

Thank you to Vicki Power, Renee Bauhofer and Rosemary Johnston for making our presence at this event such a success.

More photos of the day can be seen on our Facebook page or our website.

Annual General Meeting

The Project Numbat AGM was held on 20 September at Perth Zoo. The committee was re-elected and changes to the constitution were passed unanimously.

These have now been sent to the Department of Commerce for final acceptance.

Flourish Festival

Project Numbat attended the Flourish Festival – Relish the Diversity in Margaret River from 7 to 9 October. We spoke to numerous keen and enthusiastic people interested in getting involved with Numbat conservation and it was a fun day had by all! An all round success.

UPCOMING EVENTS

16 October 2011 – Whiteman Park 25th Anniversary Fete. Project Numbat will have a stall at this special event so come down and say hi. It promises to be a great day.

18 October 2011 – Monthly Committee Meeting in the Perth Zoo Theatre, 5pm.

25 October 2011 – Fundraising BBQ at Rostrata Primary School. Each year Project Numbat runs a fundraising bbq at Rostrata Primary School to raise funds for the organisation. It's a full-on day but well worth the effort.

Interpretation in Dryandra

While we were unsuccessful in winning a grant for interpretation about the Numbat in Dryandra, we are moving ahead with developing two signs for the Old Mill Dam site.

The signs will inform visitors about the Numbat, the importance of Dryandra and what is being done to help them.

We're finalising the text at the moment and then everything will be sent to the Department of Environment and Conservation for design and production.

Watch this space for further developments.

Do you know...

Are you aware of any events/festivals/open days you think Project Numbat should be a part of? You do? Then send your suggestion to info@numbat.org.au. We'd love to hear about it.
